

Lightning puts your ATS at the center of electric user experiences.

Lightning is a **brand-new user interface from Salesforce** making your interactions faster, dynamic and much easier to use. With TargetRecruit and Lightning, you'll get a more modern look and feel. New innovations allow you to work as fast as you can think. And all your moves will feel more intuitive because Lightning was designed around the work you need to do. **Strike now with the new Lightning UI available from TargetRecruit and take huge leaps in productivity and performance.**

A VISUAL DELIGHT

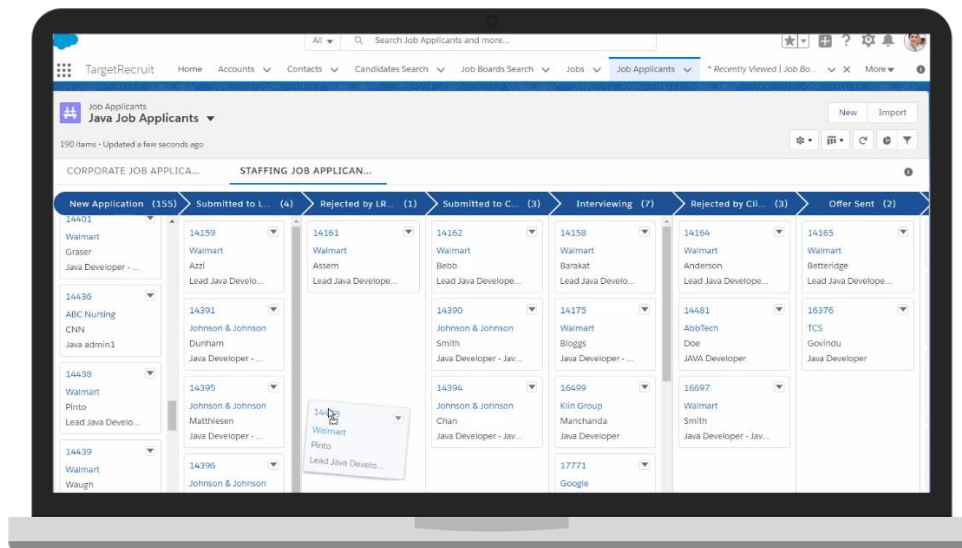

Lightning delivers a modern user experience that will tap into your senses and inspire great work. Get flexible layouts and more screen space. Get less text, and more visuals. And with a responsive design, you'll get the same experience from any device.

DYNAMIC DATA

With Lightning as your UI, dynamic interactions deliver visual feedback in the blink of an eye. Make changes and watch your screen update instantly. Now you'll get a lot more out of every click.

DRAG & DROP

Drop and drag and turn your desktop into a speedway. The Lightning Kanban View displays a visual summary for a selection of records. You can more effectively monitor your work and keep candidates moving forward.

SO EASY TO USE

Lightning puts everything you need on one screen. Customize your work environment and make it your own. Innovate with all-new features. And adapt quickly to anything your workflow throws at you. Now your TargetRecruit ATS is an even more productive place, day after day.
